PORTRAIT™
HONEYCOMB SHADES

Motorised Cordless

MORE CHOICES, MORE COMFORT, MORE ENERGY EFFICIENCY

With rich materials, and an even richer history, Portrait™ Honeycomb Shades feature award-winning designs, exclusive options and industry leading construction – for no matter what the elements have in store.

Portrait™ features close to 500 fabric options, 5 cell sizes, and a multitude of lift systems – including child-safe cordless and motorised options. Plus exclusive solutions such as our award-winning SmartFit™, SmartRelease™, Decoflex™, and Cordless Top-Down/Bottom Up. Portrait™ has a stylish answer for any lifestyle or light control need. And they look, feel, and perform like nothing else.

FEATURES & BENEFITS

CHILD SAFE & FLAME RESISTANT

Our cordless options are certified “Best for Kids™”. The unique cord release device in corded options has been tested to be effective in preventing entanglements. Flame resistant fabrics are also available for added peace of mind.

ENERGY EFFICIENCY

Utilizing unique construction and advanced materials, Portrait™ is made to insulate better. Experience fabric technologies that will make you feel more comfortable and save on energy.

SmartRise™ Cordless System

SOLUTION BASED DESIGN

Discover design that is a cut above the rest: an extra light block in Decoflex™ for more effective room darkening and privacy control on the sides; a dedicated skylight and sloped window solution that won't droop in the middle; a Light Guard option that blocks stray light in the margins between the window opening and the shade.

Decoflex™

MAKE ROOM FOR IT ALL

From festive gatherings and movie nights to afternoon naps on Saturday, there are so many ways to relax. Our honeycomb solutions can help you create your space, and make room for everything and everyone. For the ultimate relaxation, while making it feel modern, with the clean lines and shapes of our honeycomb.

WCMA CERTIFIED “BEST FOR KIDS™”

Norman® is an active participant in the WCMA “Best for Kids™” safety certification program. Products designated “Best for Kids™” include SmartRise™ Cordless, SmartFit™, Cordless TDBU, Cordless Day & Night, and Vertical Honeycomb for Patio Doors. These products are certified to have inaccessible inner cords, or have inner cords that cannot in any way create a hazardous loop.

RE-ENGINEERED & MODERNISED

Portrait™ delivers smoother, quieter and more consistent performance. It is specially made to be free from billowing, creeping and drooping. The exclusively designed rail system includes a built-in light block that helps keep glare at bay.

GET THE MOST ENERGY SAVINGS

Your windows are a source through which surprising amounts of energy for heating and cooling can be lost. The pockets of our unique cellular fabrics create a layer of insulation, for substantial energy savings and protection against energy loss.

SAVE UP TO 34.1% MORE ENERGY*

Solar heat passes through windows in the summer, while indoor heat escapes in the winter. The circulation of indoor and outside air is also a cause of energy loss. Our honeycomb shades can significantly protect your home from these types of energy losses – to create a more comfortable living environment year-round, while helping you leave a smaller carbon footprint.

| | No Honeycomb Shades | With 45mm Double Cell Light Filtering | With 45mm Double Cell Room Darkening |
|---------------------------|---------------------|---------------------------------------|--------------------------------------|
| Air Conditioner Load (MJ) | 37,715 MJ | 27,863 MJ | 24,859 MJ |
| Power consumed (kwh) | 3,492 kwh | 2,580 kwh | 2,302 kwh |
| Energy Savings | None | 26.1% | 34.1% |

*Individual results will vary. Calculation based on simulated yearly energy savings derived from "Lescom Wind" model by Takeda Jen Tokyo University of Science. The simulation assumes the following:

- 34.28 m² room
- 45mm double cell room darkening fabric
- Energy efficiency of A/C : COP=3
- Windows: 1 in east (6 m²), 2 in south (12 m²), 1 in west (6 m²)
- Window Glass: Double glass (3mm+A6+3mm)
- A/C settings: 26°C for cold room, 21.7°C for warm room

SHEER

LIGHT FILTERING

ROOM DARKENING

FLEXIBLE LIGHT CONTROL OPTIONS

Opacities from sheer to light filtering to room darkening. Sheer fabrics are perfect for day & night shades: a light softening sheer during the day, and a room darkening fabric for extra light and privacy control at night.

UV BLOCKAGE BY FABRIC TYPE

Choose from a range of UV blockage from room darkening, to light filtering, to sheer. Room darkening fabrics significantly calm and darken rooms, up to 100% of UV light. Light filtering fabrics encompass a range of UV blockage and help to create the perfect mellowed out area. With sheers, block as little as 49.9% of UV light for a cheerful or perhaps romantic setting with beautiful softened views of the outside and warm gentle light coming in.

*The UV protection performance varies depending on the colour of the fabric. The darker the colour, the higher the blockage percentage is.

SHEER: 49.9% TO 71.5% UV BLOCKAGE

LIGHT FILTERING: 88% TO 97% UV BLOCKAGE

ROOM DARKENING: 100% UV BLOCKAGE

The Gold Standard in Shade Motorisation

- A gentle upward tap on the bottom rail is all it takes to lift or lower; tap again to stop.
- Intuitive remote design: learn to use in no time; simple and easy-to-read; no complicated functions to slow you down
- Customisable presets: to adjust a single shade, a room of shades or group of shades from over 10 meters away with RF technology. A dedicated "ALL" key lifts and lowers all shades.
- Simply rest the rechargeable wand onto the shade's charging port to recharge. No ladders, tools, risk of falling or need to move any furniture.
- The unique Dual Power Meters conveniently display the shade's charge level as well as the charge level of the wand itself.
- Jam-protection: The Auto Brake technology that stops the shade when encountering obstructions.

Patio Door Vertical

The sliding solution is a polished way to add style and insulation to patio doors and sliders, some of the biggest window openings in the house where energy loss is often overlooked. It is also a perfect way to section off rooms, creating privacy zones for everyone to relax.

Patio Door Vertical Day & Night

Morning time. Nap time. Entertaining time. The Day & Night shade gives you more light control and privacy options to help set the mood and make everyday moments magical, and every night. Choose from a sheer fabric and a room darkening fabric to explore different levels of openness to create a perfect environment for everything and everyone.

Specialty Shapes

Select from the most popular specialty shapes to provide a total cellular solution. Our array of specialty shapes includes arches, quarter round, triangles, and more! Experience quality and style on even the most challenging applications.

Windsong Fabric

Introducing a new era of luxury, style and innovation in honeycomb fabric. Our new Woven Honeycomb Collection is high-fashion and full of heritage inspired woven details. Offering a look that's rich yet streamlined, sharp yet soft. And with the benefit of our advanced honeycomb technology, the New Woven Honeycomb Collection promotes energy efficiency and is ultra low maintenance – geared for years of enjoyment, made to augment the comfort of your home with breathtaking luxe appeal.

Palladian Shelf

The innovative solution creates a decorative mounting surface inside an arched window so a rectangular shade can be installed beneath an arched specialty shape shade. Palladian shelves are an elegant way to split the curved top part of the window from the squared bottom part of the window.

HOW TO CHOOSE

CELL SIZE

Classic cells or bigger cells?

A gallery of colours and opacities in 5 cell sizes from small to medium to large. Larger cells are great for larger windows

LIGHT EFFECT

How much light filter?

Select the amount of light that goes through the shade from translucent sheer to light filtering to room darkening. Or pick two fabrics for a day & night shade

FABRIC PROPERTY

What are the properties of fabric?

Explore our special collections of fabrics that including Fire Resistant, and woven fabrics. Our fire resistant fabrics are NFPA 701 compliant for extra peace of mind, while woven fabrics have an immaculate tailored look for high-end styling

INSULATION

Single cell or double cell?

The unique construction of our honeycomb insulates your home from cold and heat for lower energy bills. Choose from single or double cell for your unique design and energy efficiency needs

WINDOW SHAPE

Rectangular or Specialty Shape?

Our expanded sizes, special options for angled or curved windows, along with solutions for french doors, patio doors, specialty shape and skylights, mean you can create stylish impact while enjoying the benefits of insulating honeycomb throughout the house

SHADE SYSTEM

What kind of Shade? How do you want to raise or lower?

Portrait™ offers shade systems you won't find anywhere else. The collection includes corded, cordless, cord loop, motorisation and more. Plus day & night shades and special options for top down/bottom up adjustment
